Experience

Microsoft R&D

UX Designer 2

Aug 2020 - Present / 10 months

I currently work for the Experience and Device's Mobile Experiences group and own Microsoft Autofill experiences across all form factors on iOS & Android.

UX Designer (HoloLens)

Apr 2018 - Jul 2020 / 2.3 years

I defined the experiences for Microsoft D365 Layout a space designing tool for factory floors. I was also involved in the strategic pivot of the product to a digital twin solution.

UX Design Intern

Jul 2017 - Dec 2017 / 6 Months

My thesis aimed to envision the future of D365 CRM systems, leveraging on Office 365, Cortana, Microsoft & LinkedIn graph. Interviews with various stakeholders unearthed untapped markets and an opportunity to design an end to end system.

National Institute of Design

Research Assistant

Jan 2017 - May 2017 / 6 months

I was responsible for conducting primary and secondary research on car dashboard infotainment systems in India for Hyundai, with a keen focus on Indian behaviour and aesthetics.

@Walmart Labs

UX Design Intern

May 2016 - Jul 2016 / 2 months

I was tasked to redefine the UX of Walmart's chrome extension - Walmart's savings spotter that drives traffic from competitor websites to Walmart.

Accenture

Software Engineer

Jan 2014 - Jul 2015 / 1.7 years

As an ASP.NET developer for a health care and a retail giant, I developed and supported critical customer facing web and windows applications.

Indian Space Research Org.

Software Engineering Intern

Jan 2013 - Jun 2013 / 6 months

We developed a telemetry system that was re-programmable from the ground stations for deep space missions like the Mars Orbiter Mission (MOM) and Chandrayaan.

Education & Awards ↓

Education

National Institute of Design

M.Des Interaction Design

2015 - 2018 / 2.5 years

The programme focused on user research, sociocultural aesthetics and aspects of design & behaviour of various forms of digital products.

Visvesvaraya Technological Uni.

B.Tech, Electronics and Comm.

2009 - 2013 / 4 years

Majored in electronics and communication engineering with a keen interest in micro-controllers, robotics and software programming.

Awards

Awwwards

Winner

2017 / Honors

I designed & developed my portfolio website as a showcase of my recent projects. It won an Honorable Mention, awarded by Awwwards that recognises the talent and effort of the best web designers, developers and agencies in the world.

Pune Design Festival

Winner

2017 / Design Excellence Award

In the 11th Edition of Pune Design Festival '17 a total of 432 project were submitted by students from design schools all over the country. Project Alpha stood as the winner in the User Interface category.

Honeywell Design Challenge

Winner

2016 / Designathon

The 10 day long design-a-thon focused on design for future of the IT Experience. Finalists had an opportunity to present their work at the Honeywell Innovation Center, Bangalore.

Skills

Design

User Experience Design - User Research - User Testing - Prototyping - Interface Design - System Design - Service Design - Visual Design.

Code

C/C++ - Java - ASP.NET C# - HTML/CSS - Javascript.

Tools

Figma - Sketch - Adobe PS, AE, AI, IN - Principle - Unity - C4D - Rhino - Android Studio - Arduino IDE.
